"LET DEW DO IT"
NON-WARRANTY

"If any nursery stock, plants, bulbs, or seeds sold by us should prove untrue to name under which they are sold, or if said plant materials are delivered to the transportation company (including shipments by U. S. Mail) in an improper condition, we hereby agree, on proper proof of such untrueness to name, or of such improper condition, to replace such plant materials as originally ordered, or to refund purchase price, at our option. Except for such liability, in respect to all said plant materials sold by us, WE GIVE NO WARRANTY OR UNDER-TAKING, EXPRESS OR IMPLIED, AS TO DESCRIPTION, QUALITY, GROWTH, PRODUCTIVENESS OR ANY OTHER MATTER."

TO OUR FRIENDS AND CUSTOMERS—

We take much pleasure in presenting to you our Fall 1925 and Spring 1926 Catalog.

It is our aim and intention to supply only the best stock at the lowest consistent price. We solicit your orders, promising you that we will endeavor to please you in every way.

TRIMMING OF TREES AND SHRUBS

We have at all times capable men who understand this class of work thoroughly.

THE PRICES named in this list are based upon present market conditions, and are subject to change without notice.

"LET DEW DO IT"
EVERGREENS

**ABIES concolor.** White Fir. A native evergreen recommended for general planting.
- 1½ to 2 ft. .................................................. $2.50
- 2 to 3 ft. .................................................. 3.50
- 3 to 4 ft. .................................................. 6.00
- 4 to 5 ft. .................................................. 7.50

**BIOTA orientalis.** An evergreen with dense, pyramidal growth; the green foliage turns to brown in autumn.
- 2 to 3 ft. .................................................. $2.50
- 3 to 4 ft. .................................................. 4.00
- 4 to 5 ft. .................................................. 6.00

"LET DEW DO IT"
EVERGREENS—Continued

TSUGA canadensis. Hemlock. For enlivening winter aspect of deciduous planting, especially in woods or shade, or in graceful masses, as a hedge plant that stands clipping, or as a specimen; this tree is invaluable.

1 to 1½ ft. .............................................. $2.00
1½ to 2 ft. ............................................. 3.00
2 to 2½ ft. .............................................. 3.50
2½ to 3 ft. .............................................. 5.00
3½ to 4 ft. .............................................. 6.00
4 to 5 ft. ................................................ 7.00
5 to 6 ft. ................................................ 9.00

T. CAROLINIANA, Carolina Hemlock.
1½ to 2 ft. ............................................. $4.00

BROAD-LEAVED EVERGREENS

ABELIA Grandiflora. An extremely desirable evergreen shrub for southern planting, and entirely satisfactory in certain northern sections if provided with winter protection. Flowers white tinged with pink.

1 to 1½ ft. ............................................. $0.75
1½ to 2 ft. ............................................. 1.00
2 to 3 ft. ............................................. 1.75

AZALEA Nudiflora.
1 to 1½ ft. ............................................. $1.00

AZALEA vaseyi.
1 to 1½ ft. ............................................. $1.25

AZALEA arborescens.
1 to 1½ ft. ............................................. $1.00

AZALEA Amoena—Amoena Azalea.
15 to 18 in. ......................................... $3.00

BUXUS sempervirens.
1 to 1½ ft. ............................................. $2.00

ENGLISH LAUREL.
2 to 3 ft. ............................................. $4.00

EUONYMUS radicans. An evergreen climber which can be used in window boxes to good advantage; good for under-planting or ground covering in shady places; a low-trailing habit of growth with small, rich green foliage.
2-year .................................................. each, $0.75

E. Japonica. A handsome evergreen shrub; upright compact, dark green, glossy foliage. Attains a height of 6 to 10 feet but can be trimmed at any time and to any form and height desired.
18 to 24 in. ......................................... each, $2.00

EUONYMUS latifolius. Broadleaf burning bush.
1½ to 2 ft. ............................................. $2.00
2 to 3 ft. ............................................. 3.00

“LET DEW DO IT”
BROAD-LEAVED EVERGREENS—Continued

E. Sieboldi. Holds its fine green foliage nearly through the winter here. An upright, well filled shrub with good spread. A desirable plant for massing.
2-year; 18 to 24 in.; field grown............each, $2.00

E. Vegetus (Evergreen Bittersweet). Destined to become the most popular of evergreen climbing plants. For the beautifying of old tree trunks, stumps, garden walls, etc., it has no equal. Its foliage is unaffected by weather conditions. It absolutely holds its beautiful color at all times, winter or summer. Bears a profusion of red berries in fall and winter.
2-year ....................................each, $0.75

ILEX OPACA (American Holly).
2 to 3 ft. ..................................$3.00

ILEX CRENATA (Japanese Holly).
12 to 18 in. .................................$3.00

KALMIA LATIFOLIA (Mountain Laurel).
18 to 24 in. .................................$2.75

MAGNOLIA GRANDIFLORA (Southern Magnolia).
2 to 3 ft. ..................................$3.00
3 to 4 ft. ..................................4.00
4 to 5 ft. ..................................5.00

MAHONIA aquifolium (Holly-leaved Mahonia).
1 to 1 1/2 ft. .................................$1.50
1 1/2 to 2 ft. ...............................2.50

M. japonica (Japanese Mahonia).
1 to 1 1/2 ft. .................................$3.50

PIERIS FLORIBUNDA (Mountain Andromeda).
15 to 18 in. .................................$3.00

PACHYSANDRA TERMINALIS (Japanese Spurge).
8 to 12 in. ..................................$0.25

RHODODENDRON CAROLINIANUM (Carolina Rhododendron).
18 to 24 in. .................................$4.00

R. CATAWBIENSE (Catawba Rhododendron).
18 to 24 in. .................................$4.00

R. MAXIMUM (Rosebay Rhododendron).
18 to 24 in. .................................$4.00

FLOWERING SHRUBS

Althea (Hibiscus Syriacus—Rose of Sharon. One of the best of the old-fashioned shrubs, blooming from July until September.

Althea—White
3 to 4 feet ..................................$0.50

Althea—Purple.

branched shrub, yellow flowers July to October.
2 to 3 feet........................................... $0.50
3 to 4 feet........................................... .75

LIGUSTRUM—PRIVET

L. Ovalifolium—California Privet. The most popu-
lar hedge-plants.
18 to 24 inch .................................. 10c each; $1.00 per 10; $8.00 per 100
2 to 3 feet .................................. 12c each; $1.00 per 10;

L. Regelianum—Regels Privet.
2 to 3 feet........................................... $0.25
3 to 4 feet........................................... .45

LODENSE PRIVET—New Dwarf Privet

This is a new and distinct form of privet of ex-
tremely compact and low growing habit. It is
very useful for low hedges and borders as it stands
shearing well, it is also very useful as a decora-
tive plant in tubs, pots, or porch boxes.
1-year plants, 40c each; 50 for $18.00
2-year plants, 50c each; 50 for $25.00

“LET DEW DO IT”
Ligustrum amurense. Amoor River Privet. A large shrub with upright branches, growing 8 to 12 feet tall. Native of China. Leaves dark green and lustrous, tardily deciduous or in the South nearly evergreen. Flowers white, in erect panicles. Splendid for hedges.
18 to 24 inches, 20c each; $1.50 per 10; $10 per 100
2 to 3 feet, 25c each; $2.00 per 10; $14 per 100
3 to 4 feet, 30c each; $2.50 per 10; $20 per 100

L. Ibota. Ibota Privet. A large shrub with graceful arching branches. Native of China and Japan. Leaves dark green and lustrous, 1 to 2 inches long, persisting until the advent of cold weather. Flowers white, in numerous nodding clusters. Berries black with a bloom.
3 to 4 feet, 50c each; $4.00 per 10

Lonicera—Bush Honeysuckle

L. Fragrantissima—Fragrant. Honeysuckle-bush. Creamy white, very fragrant, flowers in March and April. Foliage dark-green and hangs on practically all winter.
3 to 4 feet. $0.65
4 to 5 feet. .75

L. Morrowii—Japanese Bush—Honeysuckle. Pure white flowers changing to yellow in May; followed by red fruit in August.
3 to 4 feet. $0.50
4 to 5 feet. .75

L. Tartarica Rosea—Tartarian Honeysuckle. Flowers pink to crimson in May, fruit crimson.
2 to 3 feet. $0.50
3 to 4 feet. .75

Philadelphus—Mock Orange

P. coronarius—Common Mock Orange. Pure white flowers in May; very fragrant.
3 to 4 feet. $0.50
4 to 5 feet. .75

P. Grandiflorus—Large flowered Mock Orange. Large creamy white flowers.
3 to 4 feet. $0.50
4 to 5 feet. .75

P. Virginal—Semi-double flowers blooming all summer. Pure white and fragrant.
5 to 6 feet. $1.50

Rhodoty whole Kerrioides—White Kerria. Single white flowers in June, black berries all winter. Medium grower.
3 to 4 feet. $0.50
5 to 6 feet. 1.00

"LET DEW DO IT"
FLOWERING SHRUGS—Continued

Ribes Aureum—Flowering Currant. Yellow flowers in spring, followed by black fruit.
2 to 3 feet ......................................................................................................................... $0.40

Rhus Cotinus—Smoke Tree. The ripening bloom presents a light airy, mist-like appearance. Large shrub.
3 to 4 feet .......................................................................................................................... $0.75
5 to 7 feet ............................................................................................................................ $1.50

Rhus Aromatica—Sweet-scented Sumac. Attractive foliage, that emits an aromatic odor when bruised.
4 to 5 feet ............................................................................................................................ $0.75

Rhus Copalina—Black Sumac. Large shrub. Shiny foliage turning in fall a bright crimson.
4 to 5 feet ............................................................................................................................ $0.75
5 to 6 feet ............................................................................................................................ 1.00

Russian Olive—Eleagnus Angustifolia.
18 to 24 inch ....................................................................................................................... $0.25

Sambucus Pubens—Red-berried Elder. Large shrub, gigantic trusses in July, followed by masses of red berries.
4 to 5 feet ............................................................................................................................ $1.00
6 to 7 feet ............................................................................................................................ 1.50

3 to 4 feet ............................................................................................................................ $0.50
4 to 5 feet ............................................................................................................................ .65

SPIRAEA

S. Bumalda, Var., Anthony Waterer—Waterer's Spiraea. Dwarf, pink flowers all summer.
12 to 18 inch ....................................................................................................................... $0.50
18 to 24 inch ....................................................................................................................... .75

S. Callosa, Var., Alba—Fortune's white Spiraea. Dwarf, white blooms all summer.
12 to 18 inch ....................................................................................................................... $0.50

S. Douglasii—Douglas Spiraea. Upright, deep rose-colored spikes in July and August.
3 to 4 feet ............................................................................................................................ $0.75

3 to 4 feet ............................................................................................................................ $0.50
4 to 5 feet ............................................................................................................................ .65

S. Prunifolia Fl., Fl.—Bridal Wreath. Tall. Small very double white flowers in early May.
2 to 3 feet ............................................................................................................................ $0.50
4 to 5 feet ............................................................................................................................ 1.00

S. Reevesiana Flore-Plena—Reeves' Spiraea. Clusters of white flowers in May, 10 days later than Spiraea Van Houtte.
3 to 4 feet ............................................................................................................................ $0.75

"LET DEW DO IT"
SPIRAEA—Continued

S. Thunbergii—Thunberg’s Spiraea. Dwarf, feathery foliage, white blooms in April or early May. The first spiraea to bloom.
15 to 18 inch..........................$0.50
2 to 3 feet....................................75
3 to 4 feet....................................1.00

S. Van Houttei—Van Houtte’s Bridal Wreath. The most popular of all the Spiraeas. In May the drooping branches are entirely covered with small single flowers in clusters.
2 to 3 feet..........................$0.35
3 to 4 feet..............................0.50
4 to 5 feet..............................0.75

Symphoricarpos Racemosus—Snowberry. Medium size, small pink flowers in July. Large white berries in fall.
2 to 3 feet..........................$0.50
3 to 4 feet..............................0.75

Symphoricarpos Vulgaris—Coralberry. Showy red berries in clusters on graceful drooping branches.
2 to 3 feet..........................$0.50
3 to 4 feet..............................0.75

SYRINGA—LILAC

S. Persica—Persian Lilac. Purple spikes in long spikes in May.
3 to 4 feet....................................$0.75
4 to 5 feet....................................1.00

S. Rothomagensis—Rouen Lilac. A very free flowering variety, with large light purple flowers in May.
3 to 4 feet....................................$0.75

S. Vulgaris—Common purple Lilac.
2 to 3 feet..........................$0.50

S. Vulgaris Var., Alba—Common white Lilac.
2 to 3 feet..........................$0.65
3 to 4 feet..............................0.75

Tamarix Aestivals—Tamarisk. Delicate, soft pink sprays of flowers from June until September.
3 to 4 feet....................................$0.50
4 to 5 feet..............................0.65
5 to 6 feet..............................0.85

VIBURNUM—SNOWBALLS

V. Dentatum—Arrow-Wood. Flowers creamy white in flat-topped clusters in May. Black fruit.
2 to 3 feet....................................$0.60
3 to 4 feet....................................0.75

V. Lantana—Wayfaring Tree. White flowers in May and June, red, turning to black fruits.
2 to 3 feet....................................$0.60

“LET DEW DO IT”
VIBURNUM—SNOWBALLS—Continued

V. Molle—Common Viburnum. Large white blooms in May.
3 to 4 feet...........................................$0.60

V. Opulus—Highbush Cranberry. One of the best of the red-berried shrubs for fall effect.
3 to 4 feet...........................................$0.75
4 to 5 feet..........................................1.00

V. Opulus, Var., Sterilis—Old-fashioned Snowball. Large, pure white blossoms in May.
3 to 4 feet...........................................$0.75
4 to 5 feet..........................................1.00

2 to 3 feet...........................................$0.75

V. Prunifolium—Black Haw. A native with white flowers, followed by large black fruit.
2 to 3 feet...........................................$0.75

WEIGELA—WEIGELIAS

2 to 3 feet...........................................$0.50

W. Eva Rathke—A dark red variety, blooming all summer.
2 to 3 feet..........................................$0.75
3 to 4 feet..........................................1.00

W. Rosea—Rose-colored Weigelia. Beautiful rose pink flowers in great profusion in May and June.
2 to 3 feet...........................................$.75
3 to 4 feet..........................................1.00

CLIMBERS AND TRAILERS

Ampelopsis Quinquefolia—Virginia Creeper. This is the true Woodbine or five-fingered ivy.
18 to 24 inch........................................$0.60

A. Veitchii—Boston Ivy. Graceful vine clinging to any support.
12 to 18 inches.....................................$0.60

2-year ................................................$0.50
3-year ...............................................$.75
4-year ...............................................1.00

Hedera-Helix—English Ivy. The popular small-leaved English Ivy.
12 to 18 inch........................................$.25
18 to 24 inch.......................................$.45

"LET DEW DO IT"
Pueraria—Kudzu Vine. The most rapid-growing vine we have. Plants $0.75

**Lonicera Japonica, Var., Halliana**—Japanese Honeysuckle. Flowers white, changing to yellow, blooming all summer. Very fragrant.
- 2 to 3 feet $0.35
- 3 to 4 feet .50

**L. Sempervirens**—Scarlet Honeysuckle. Scarlet trumped-shaped flowers in summer.
- 18 to 24 inch $0.35
- 2 to 3 feet .50

**Lycium Barbarum**—Matrimony Vine. Light-purple flowers in June and July.
- 3 to 4 feet $0.50

- 3 to 4 feet $1.00

- 3 to 4 feet $1.00

FALL PLANTED

SPRING FLOWERING BULBS

FALL PLANTING—Because Hyacinths, Tulips Narcissus, etc., do not bloom until Spring—many people forget to order and plant them until Spring comes and their neighbor’s flowers are a belated reminder. All bulbs for blooming indoors during the Winter, or for an outside show in the Spring, must be planted in the Fall—preferably in October.

OUT-DOOR PLANTING may be done any time from the last of September to the first of January, where the ground remains unfrozen, but, if possible, should be done in October or early November. Hyacinths, Tulips and Narcissus should be planted, the top of bulb 4 inches beneath the surface; Lilies, 5 inches. Interval in rows: Hyacinths, 7 inches; Tulips, 5 inches; Narcissus, 12 inches; Lilies, 14 inches.

SOIL—Any good, thoroughly drained soil will grow bulbs well. If it should be in a heavy clay, it would be best to add sand and well-rotted manure to make it loose. The surface of beds should be slightly raised at center so that water will run off quickly, as bulbs are liable to rot if water remains on them any length of time.

WINTER PROTECTION—After the ground is frozen, cover the beds with 4 to 6 inches of leaves if they can be had; if not, coarse manure will do nearly as well; if leaves are used, throw over a little brush or earth to prevent blowing off. In the South where the ground does not freeze more than a slight crust, they will require no protection.

DUTCH BULBS

HYACINTHS—
White, Red, Violet, Pink...........100, $6.50; 25, $2.00
Light Blue ................................100, $6.50; 25, $2.00
Yellow ....................................100, $6.50; 25, $2.00
Grape ....................................$3.50 per 100

TULIPS—DARWIN—
Pride of Haarlem—Dark silky rose, enormous flower.
                      $5.00 per hundred; $0.75 per doz.
Clara Butt—Salmon pink, one of the best.
                      $5.00 per hundred; $0.75 per doz.
F. Sanders—Dark rosy red, with a clear white base.
                      $5.50 per hundred; $1.00 per doz.
                      $5.00 per hundred; $0.75 per doz.
Stanley—Rose carmine.
                      $5.00 per hundred; $0.75 per doz.
Moonlight—Light soft yellow.
                      $5.00 per hundred; $0.75 per doz.
Baron de la Tonnaye—Lovely pink.
                      $5.00 per hundred; $0.75 per doz.
Orange King—Orange, very good one.
                      $5.50 per hundred; $1.00 per doz.
Scarlet Beauty.
                      $5.00 per hundred; $0.75 per doz.
La Tulipe Noire—Comes nearest of all to black, enormous blossom.
                      $5.00 per hundred; $0.75 per doz.
Darwin Mixed—$3.75 per hundred.

TULIPS—BREEDERS
In ten varieties. $8.00 per hundred; $1.50 per doz.

NARCISSUS AND DAFFODILS

Emperor—Yellowish perianth, yellow trumpet.
                      $8.00 per hundred; $2.25 per 25
Empress—Pure white perinath with yellow trumpet.
                      $8.00 per hundred; $2.25 per 25
Sir Watkins—Yellow cup rich sulphur perianth.
                      $8.00 per hundred; $2.25 per 25
King Alfred—Large golden yellow trumpet, very large. $12.00 per hundred.
Excelsior—$8.00 per hundred.
Poeticus Ornatus—Pure white, orange center.
                      $7.00 per hundred; $0.90 per doz.

CROCUS
Yellow, Light Blue, Dark Blue, Stripped. $2.00 per hundred
Snowdrops $3.50 per hundred

FRUIT

APPLES—
Delicious.
Early Harvest.
Grimes Golden.
Maiden Blush.
Rome Beauty.
Stayman’s Winesap.
Yellow Transparent.
York Imperial each, $1.25

APRICOT—
Moorpark each, $1.25

CHERRIES—
Early Richmond.
Montmorency.
Gov. Wood.
Black Tartarian each, $1.50

PEACHES—
Elberta.
Carman.
Belle of Georgia.
Greensboro.
Lemon Cling.
Early Rose each, $0.75

PEARS—
Bartlett.
Keiffer.
Seckel each, $1.25

PLUM—
Abundance.
Satsuma.
Shropshire Damson.
Red June each, $1.25

RASPBERRIES—
Cuthbert—Red Per 100, $8.00
Cumberland—Black

STRAWBERRIES Per 100, $9.00

CURRANTS—
Red, White each, $0.40

GOOSEBERRY—
Downing—Large roundish, light-green.
Houghton—Medium roundish, pale-red, each, $0.40

GRAPEs—
Agawam—Black.
Catawba—Large, copper-red.
Concord—Large, purplish-black.
Delaware—Medium light-red.
Niagara—Large white.
All Grapes, 2 year, each $0.35
All Grapes, 3 year, each $0.40

“LET DEW DO IT”
LANDSCAPE PLANTING

Houses and other buildings are not natural to the earth’s surface and do not appear happy and at ease unless they have what the landscape architect calls a “setting.” No matter how fine the material or how beautiful the lines of the house may be, it is not pleasing to look upon unless it appears as part of the landscape.

The buildings and grounds should be a picture, the house, of course, should be the central figure but the surroundings should all lead up to it and harmonize with it. A house properly “set” looks homelike and comfortable.

The foliage of trees and shrubs is indispensible as a background or frame to the picture which is to be created. Everything—the lay of the land, the shape, the size, the color of the house, all must be considered and complete working plans made before proceeding. It is impossible to make any set rule that will suit all places. In fact, no rule will apply to any two places. The individuality of the place must be preserved.

Trees make the sky-line an important feature. They are often invaluable as wind-breaks, and they supply shade and retain moisture—conditions which are essential to the life of some of our choicest flowers.

Some of the trees are noteworthy for their profusion of bloom to such an extent as to almost hide the branches and young leaves. Among these are the cherry and plum, including the varieties that have come to us from Japan; the English Hawthorne with its array of American cousins; and all varieties of Crab Apples and flowering peaches. The flowering Dogwood is another tree noted, along with the Red Bud, for it abundance of bloom. Some of the Willows, are especially attractive when planted near a bog garden, their catkins and bright colored bark, oftimes making the first announcement of spring.

Among the larger sized trees noted for their bloom are the Lindens, Locusts, Catalpa, Horse Chestnut, and Red Maple, the two first named be-

ing extremely fragrant. The blooms of the Norway and Soft Maples are also worthy of mention, although not so richly colored as the Red Maple. The dark green foliage of the Tulip tree is almost so dense as to hide the inconspicuous flowers, although they are worthy of attention.

There are other ornamental trees which do not attract attention by their bloom, but which have charms all their own. Some of our native trees such as the sturdy oak, in its many varieties; the stately American elm, which unfurls its branches in such majesty that it seems to tower above its neighbors; the sycamore trees with their large, light green foliage are well adapted to city planting for they are little affected by the smoke. The white bark of the sycamore is very attractive in winter.

Sometimes a weeping tree is highly effective when rightly planted on a lawn. One of the choicest of all these is the weeping birch. This tree has many attractive characteristics, which combine to make it one of rare beauty.

No home ground, whether lawn or garden, is quite complete without at least a few of the cone bearing Evergreens. The winter landscape would be dreary and monotonous, indeed, if there were no trees of this kind.

It is well known that the healthy growth of the conifers depends more upon the soil than climatic conditions.

The best soil for Evergreens is a sandy loam of good texture. Lacking this, the soil should be of good depth and well drained. The only conifers suitable to wet locations are the natural swamp lovers, of which two of the most beautiful specimens are the long-leaf Pine and bald Cypress.

There is a large variety of Evergreens—some long lived, some short lived, some tall, some dwarf, some dark green and some light green. Among later introductions are the golden, the blue, and the pendulous forms, each one has its strong points, making it particularly desirable for certain locations.

"LET DEW DO IT"
"Every family can have a garden. If there is not a foot of ground, there are porches and windows. Wherever there is sunlight, plants may be made to grow, and one plant in a tin can may be more helpful and inspiring to some than a whole acre of lawn and flowers may be to another."
